

Muhammad Mufeed

Motivated and detail-oriented Bachelor of Computer Applications student with hands-on experience in developing responsive web applications using PHP, MySQL, HTML, CSS, and JavaScript. Built academic projects including car rental, bus booking, e-commerce, real-time chat, and live score tracking systems with secure admin panels. Demonstrates strong problem-solving abilities, effective communication, and a collaborative approach to teamwork. Passionate about learning new technologies and contributing to innovative, scalable software solutions in professional environments.

EDUCATION

Bachelor of Computer Applications (BCA)
Mangalore University 2023 – 2026
Pre-University
Commerce HEBA
2021 – 2023

TECHNICAL SKILLS

Frontend
HTML, CSS, JavaScript, Bootstrap
Programming
PHP, Python, C
Database
SQL Server, MongoDB (Basic)
Tools & Platforms
Git, GitHub, VS Code, SSMS, XAMPP, phpMyAdmin
Productivity
MS Word, Excel, PowerPoint

LANGUAGES

English – Intermediate
Hindi – Intermediate
Kannada – Fluent
Malayalam – Native

SOFT SKILLS

Communication
Teamwork
Problem Solving
Time Management
Analytical Thinking
Quick Learning
Adaptability
Presentation Skills

PROJECTS

Car Rental System

- Developed a full-featured car rental web application with vehicle booking, customer registration, and an automated reservation management system using PHP and MySQL.
- Implemented an admin dashboard for managing vehicle inventory, booking status, and customer records with a responsive cross-device interface.

Bus Booking System

- Built a dynamic bus booking platform featuring seat reservation, route and schedule management, and a streamlined online booking process for end users.
- Designed an administrative panel enabling route configuration, fare management, and real-time booking oversight for efficient operations.

Live Cricket Score Application

- Created a real-time cricket score tracking application leveraging Node.js and third-party APIs to deliver live match updates and scorecard data.
- Engineered a user-friendly interface with efficient data handling for fast load times and accurate real-time score rendering.

Supermarket Order & Delivery System

- Developed an end-to-end ordering platform with product catalog management, customer ordering, order tracking, and delivery status updates.
- Integrated role-based access control for administrators and customers, enabling streamlined inventory management and order fulfillment.

Real-Time Chat Web Application

- Built a secure real-time chat application with user authentication, instant messaging, and persistent message storage using PHP and MySQL.
- Implemented AJAX-based asynchronous communication for seamless real-time message exchange with a responsive cross-device interface.

ACHIEVEMENTS

- Secured First Place in the Intercollege Coding Competition, demonstrating strong algorithmic thinking and competitive programming skills.
- Won First Place in the Intercollege Web Designing Competition, showcasing proficiency in front-end development and modern web technologies.

CERTIFICATIONS

- UI/UX Fundamentals Certificate
- Data Analyst Certificate
- Frontend Developer Certificate
